# PROMETEO<sub>22</sub>

INNOVATE IMPLEMENT IMPROVE

## About Us

Prometeo 2022 is the second edition of IIT Jodhpur's National Technical + Entrepreneurial Festival. Prometeo derives its name from the Greek word for forethinker, and celebrates disruptive technologies through talks, workshops, and competitions.

This year's theme for Prometeo 2022 is 'India in 2030-40-50' with the objective to address the major existing challenges of our society, provide exposure of different technologies to build the new India by expanding the technical and economical orbit.

```

## Software Hackathon

Software Hackathon will be organized where web and App developers will get a chance to build the product according to the requirements given by the experts of the domain.

## Technical Events

---

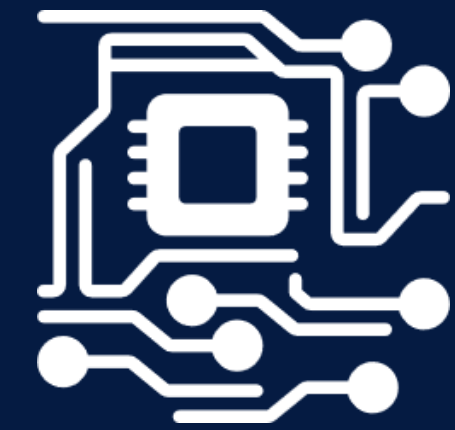

## Scavenger Hunt

For the Gaming aficionados, there will be a scavengerhunt competition which will allow students to practice problem-solving in a tangible way.

## Coding Competition

After hearing the word "Tech" the thing that comes into one's mind is coding. The participants will be given a set of programming tasks and the top participants will be felicitated.

## Technical Events

---

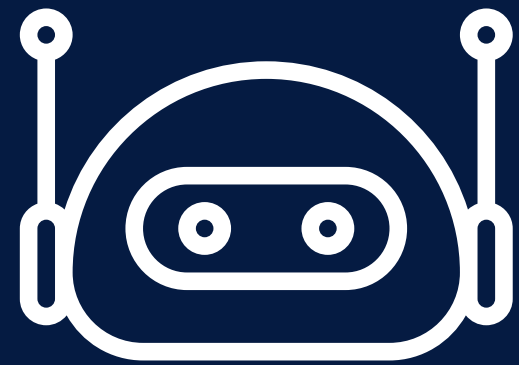

## Arduino Competition

For people interested in building solutions based on Arduino, we are designing challenges for participants to show their skills on Arduino.

## CAD Night

We all know the importance of intuitive VirtualDesign in the present technical/industrial era. So this competition will give chance to all participants to hone their skills on CAD tools.

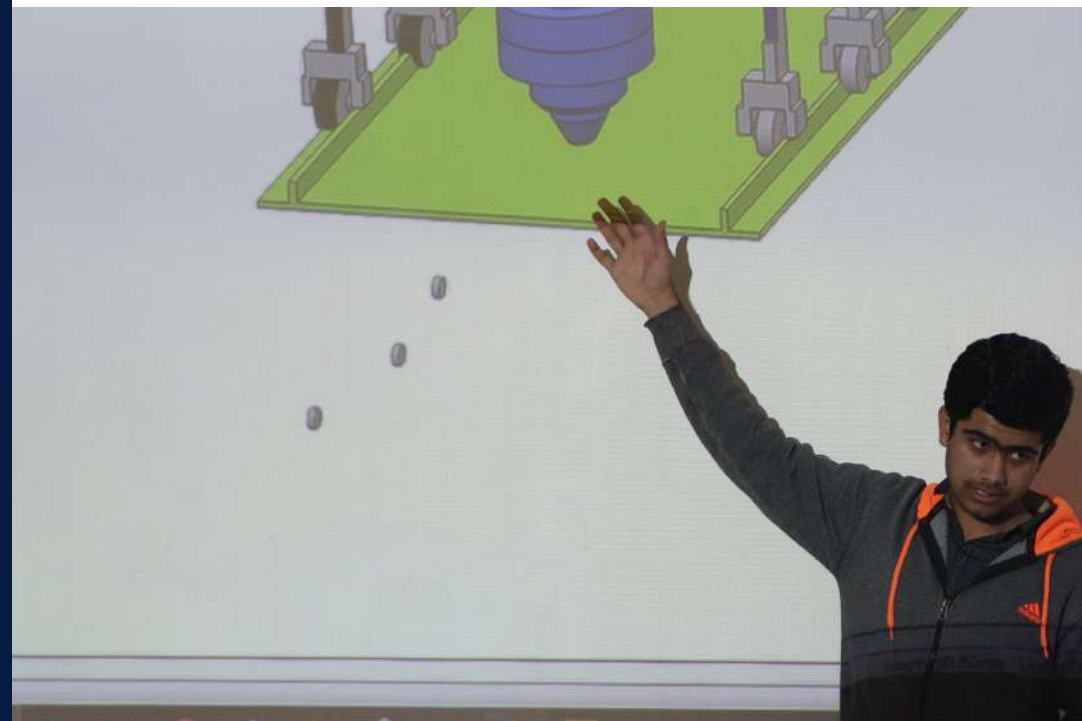

## Tech Quiz

We announce a quiz competition based on the tech theme. Do participate and yes, don't forget to brush up on your Science & Technology knowledge before participating!

## Technical Events

---

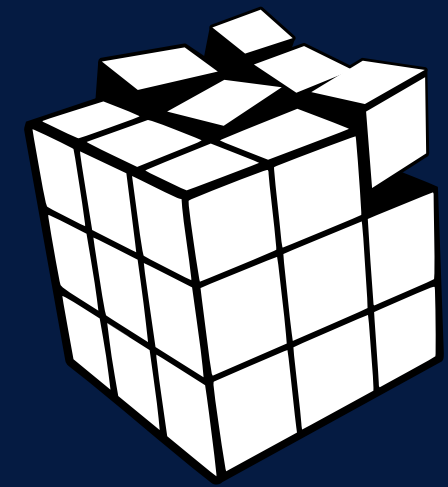

## Kaggle Competition

For Data-science and Machine Learning enthusiasts , a Kaggle competition will be held where participants will be asked to solve tasks of varying complexities designed by experts.

## Technical Events

---

## Cubbing Competition

Rubik's Cube lovers will be challenged by different rounds of testing their solving skills. Speed, solving different variants of cubes, and forming patterns will be the skillsets that would be testified.

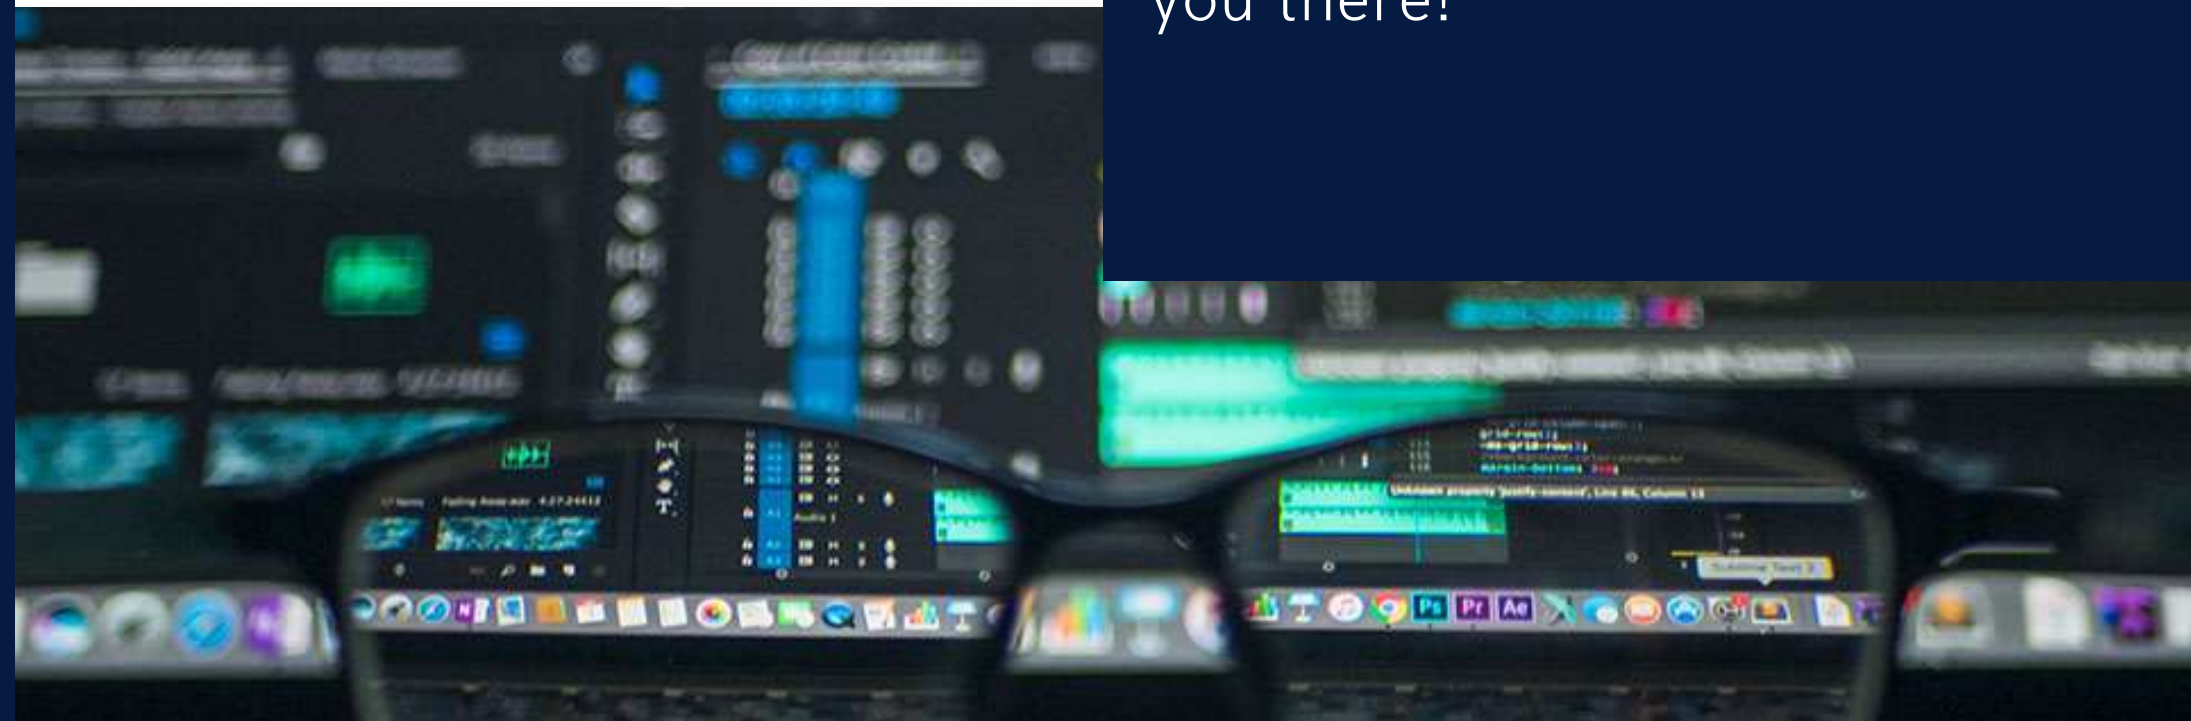

## Seminars & Workshops

interactive seminars will be organized by renowned and expert Industry speaker guests to give direction about the skills needed in the industry and the newer technologies in recent times.

## Technical Events

---

## Tech Article Writing

For all the libertarians and the avid readers, we announce an article writing competition based on the Tech theme. Do join to showcase your writing skills. See you there!

## Pranalika

Ideathon will be arranged where business enthusiasts can develop an idea regarding a relevant problem and have to come up with a proper business plan, to begin with.

## Entrepreneurial Events

---

## Biz Quiz

For all the quiz enthusiasts quizzes will be arranged to check their knowledge of the share market and many other interesting things in finance and management.

## Business Darbar

The pitching event, similar to shark tank will be the event where bright minds have to pitch certain business ideas in front of judges and have to face questions from judges.

## Entrepreneurial Events

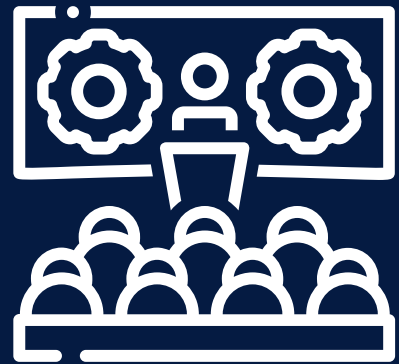

---

## Anubhav

Anubhav will be a fireside chat with successful student entrepreneurs from all over India. This will motivate and guide students and also clear their doubts.

## Workshops

These workshops would be fascinating, fun, and informative at the same time. Experts in a topic will be the mentors in these events, so anybody who attends will learn something new. Undoubtedly a person attending it would undoubtedly be industry-ready with incredible skills.

## Workshops

---

In the workshop, we will have sessions where, next to the trainer discussing specific technical concepts, the participants spend a good part of the allotted time completing many exercises on their machines. Workshops will be conducted by industry experts and provide an excellent opportunity for learning and gaining practical experience. The workshops are designed in such a way that they help the participant to make great connections and progress in their academic and professional careers.

## Paper Presentation

We present an opportunity for all the researchers out there in India to show their work in paper presentation event. Researchers have to present their work.

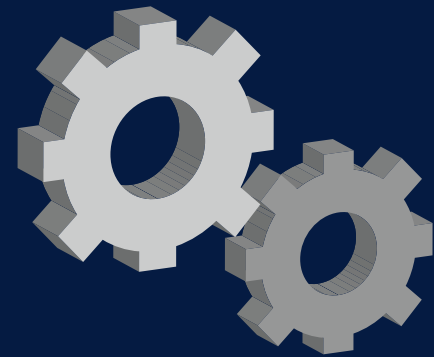

## Exhibition Events

---

## Indigenous Technology

Wondering what technology is being developed at IIT Jodhpur? This exhibition includes all the researches done at IITJ and shows how IIT Jodhpur is contributing to develop India.

## Showcase of Industry product

Excited about what new technologies are influencing the market? We are arranging events where industries can show their products which brings innovation. Event will give audience an idea about future of technology in India.

## Exhibition Events

---

**Want to find out  
the future of  
technology in  
India ?**

Being a technical and entrepreneurial festival 'Prometeo22' is supposed to attract people that are interested in technical as well as in financial domain from all over India. We are expecting around 5000 people to join us in 'Prometeo22'.
